

GREAT PERFORMANCE, POCKET SIZED.

Portable, yet highly efficient. The battery-powered MIGHTY Vaporizer uses a patented combination of full hot air convection heating and additional conduction, which ensures an efficient vaporization from the very first draw.

MIGHTY KEY FEATURES

- Combined convection and conduction heating for big vapor clouds from the first draw
- Full temperature control on device
- Temperature range from 40-210°C (104-410°F)
- LCD display
- 2 high performance Lithium-Ion Batteries
- 1,4 cm³ sized Filling Chamber
- Exceptional air flow
- Pure taste
- Dosing Capsules available

BRAND BENEFITS

- Safe and easy use
- Efficient vapor production
- Efficient cooling
- High quality materials
- Portability
- Low draw resistance
- Temperature precision
- Even vaporization
- Outstanding functionality
- Time-tested quality
- No combustion
- Made in Germany

Mighty

GREAT PERFORMANCE, POCKET SIZED.
